Coal Hydrogenation Research Institute - Mukden, Manchuria

Description
Coal Hydrogenation Research Institute in Mukden, Manchuria. Steel-work for fractionating column which was removed during Soviet occupancy. This plant was used for the development of hydrogenation processes for the production of liquid fuels from Fushun Shale fractions. All the equipment of this plant, except storage tanks, was removed. Photograph taken during the U.S. Reparations Mission. Edwin Pauley was the U.S. Ambassador on the Allied Reparations Committee from 1945-47 (the committee that assessed the reparations the Axis powers could afford to pay the victors).

Date(s)
June 16, 1946
